TECHNICAL SKILLS

- React.js
- Spring Boot
- Node.js
- Java
- JavaScript
- TypeScript
- MySQL
- flutter
- PostgreSQL
- MongoDB
- RESTful APIs
- Spring Data JPA
- JWT
- Git/GitHub
- ms office

SOFT SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English
- sinhala

SASHIK MINDAKA

FULLSTACK DEVELOPER | SOFTWARE ENGINEER

SUMMARY

Adaptable Software Engineer with a solid foundation in full-stack development, specializing in JavaScript, TypeScript, React, and Node.js. Proven ability to build scalable web applications and integrate AI tools and techniques through hands-on academic projects and open-source contributions. Eager to leverage strong problem-solving skills, AI knowledge, and a collaborative mindset within an innovative engineering team.

EDUCATION

NSBM Green University	2025 – 2029 (Expected)
BSc (Hons) in Software Engineering	
H/Hungama Vijayaba National College	october 2024
G.C.E. Advanced Level (A/L)	
H/Ambalantota National College	march 2022
G.C.E. Ordinary Level (O/L)	

PROJECTS

Financial Management System | MERN Stack

- Technologies: MongoDB, Express.js, React.js, Node.js, Redux, JWT, Chart.js
- Built a secure MERN-stack financial dashboard for real-time expense tracking and analytics.
- Integrated Chart.js and optimized MongoDB schemas, improving user budget adherence by 25%.

TravelMania – Camping Site & Rental Marketplace | Full-Stack

- Technologies: Java, Spring Boot, React.js, PostgreSQL, Hibernate, RESTful APIs
- Developed a full-stack gear rental marketplace using React.js and a high-performance Spring Boot/PostgreSQL backend.
- Designed secure RESTful APIs with real-time inventory checks to manage end-to-end booking lifecycles and prevent booking conflicts.

GameZone – Full-Stack E-Commerce Platform

- Technologies: React.js, Spring Boot, PostgreSQL, REST APIs
- Developed a full-stack e-commerce platform for gaming hardware, featuring a responsive React frontend and an optimized shopping cart experience.
- Engineered a scalable Spring Boot backend with RESTful APIs to efficiently manage user authentication, inventory, and order processing.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle (Issued: Aug 2025)
- Practical GitHub Actions – LinkedIn (Issued: May 2026)
- Introduction to Career Skills in Software Development – LinkedIn (Credential ID: 20341d76...)
